MUNOX 23
14th Model United Nations of Xiamen

Welcome Message from the Secretaries-General of MUNOX 2023

Dear Delegates,

Welcome! The 2023 Model United Nations of Xiamen is coming soon! The MUNOX conference, organized by the Manila Xiamen International School, will be hosted in Xiamen, China from November 17th to 19th, 2023.

Since 2009, Manila Xiamen International School had successfully organized several MUNOX conferences. This year marks the 14th anniversary of MUNOX history, it is recognized as one of the longest-running conferences in Fujian Province.

The MUNOX conference allows delegates to communicate, speak, debate and cooperate with other delegates to come up with effective solutions to the world's real-time pressing issues. With the preparation before the conference and the two-days agenda, students from all over the world will be immersed in discussing international affairs, so as to cultivate students' international awareness.

Over the past 13 years, each Secretary-General has led the team with heart and worked day and night, to let each delegate leave with precious memories of the conference. Of course, MUNOX had also encountered numerous emergency situations, such as Covid-19 pandemic restrictions that occurred in Xiamen, 2022. In order to cooperate with the government's epidemic prevention policy, under the leadership of the previous secretaries-general and the cooperation of the staff team, the agendas starting the second day were swiftly transitioned to an online conference, leading a successful end to the 13th Model United Nations of Xiamen.

With the accumulated experience of previous years, having previously been delegates, Dais members, and the Under Secretaries-General of MUNOX, we are honored to hold this year's MUNOX conference on behalf of Manila Xiamen International School. We are encouraging more delegates to join the event and discuss different global issues in different committees. Each committee and its topic will be announced with the members of the Dais team on September.

Lastly, as the Secretaries-General of this year's conference, we sincerely invite all the enthusiastic scholars and delegates to participate in the Model United Nations of Xiamen, 2023. We wish this year's conference for everyone to be smooth-sailing and rich in new-found knowledge, experiences and unforgettable memories.

We look forward to seeing you all in Xiamen this November!

Sincerely,
Silvia Chung, Roman Go, Levana Yau

Model United Nations of Xiamen 2023

Model United Nations

Model United Nations is an educational simulation of the United Nations. Students who participate at a MUN conference take on the role of delegates representing their assigned UN country. Together, delegates from all over the world engage and investigate current international issues and work towards a possible solution. MUN aims to transform participants into future world leaders, developing their critical thinking, communication, and research skills. Each delegate is assigned to a committee with a different debate topic and may exercise different rules of procedure. Well-trained Dais members are assigned to each committee, regulating the flow of debate to ensure quality discussions from all participants.

What is MUNOX?

The Model United Nations of Xiamen (MUNOX) was established in 2009 by the Manila Xiamen International School. Until the current year, MUNOX has been hosted annually in Xiamen, China. For the past 13 years, MUNOX has strived to nurture global awareness and develop students into critical thinkers. Being one of the longest-running conferences in China, this year's conference marks the 14th anniversary of MUNOX. In addition, MUNOX has been a platform for students to make new friends and learn for several years. MUNOX 2023 will continue to provide a space for passionate learners to debate global issues worldwide.

Why MUNOX?

MUNOX has continuously pursued excellence for the past 13 years in Xiamen. Like previous years, MUNOX 2023 will be hosted in Xiamen, venue of the event will be announced. All delegates participating in this conference will be awarded a participation certificate and ASDAN China certification, which may serve as an additional credentials for students' college portfolios. In addition, students have been given the opportunity to lead as Directors and Assistant Directors at the conference. As delegates, they will represent various nations, and develop their skills in negotiating, debating, writing, and presenting. Special awards will also be given to delegates that have performed excellence in their respective committees. MUNOX Awards include Best Position Paper Award, Honorable Mention Awards, Outstanding Delegate Award, and the Best Delegate Award.
